Consumer Directed Personal Assistance Program (CDPAP)

(Through the Monroe County Dept. of Human Services' Home Care Services Unit)

The Consumer Directed Personal Assistance Program (CDPAP) is a statewide Medicaid program that provides services to individuals who have a medical need for help with activities of daily living or skilled nursing services. Recipients have flexibility and freedom in choosing their caregivers, and are responsible to hire, train, supervise and fire personal care aides.

State regulations prohibit a spouse or parent from being hired as the CDPAP aide but allow some extended family members such as an adult child, son/daughter-in-law or niece/nephew.

Eligibility:

- Adults age 18 and older with a chronic illness or diagnosis
- Eligible for nursing home level of care
- Eligible for Medicaid coverage
- Physician order for services to the local social services district, which then completes a social and nursing assessment
- Capable of safely residing in the community

Supports and Services for People with Developmental Disabilities

(Through OPWDD - Office for People With Developmental Disabilities)

People with developmental disabilities can apply for OPWDD supports and services which allow them to remain in the community. Services can include habilitation services, respite care, service coordination, and adaptive technologies. Individuals, or their caregivers, guardians, advocates, or care coordinators who help them, may apply. While some services are funded through the county and/or state government, most are funded by the federal government through Medicaid. The New York State Office for People with Developmental Disabilities (OPWDD) now has the [Front Door](#) initiative. The new Front Door approach gives individuals who are seeking services for the first time or who are interested in modifying their current plans as many opportunities as possible to direct their own services.

Eligibility:

- Diagnosis of a developmental disability
- The disability has occurred before the person was 22 years of age
- The disability can be expected to continue indefinitely, or permanently
- The disability causes a substantial handicap to a person's ability to function normally in society
