

Nursing Homes/Skilled Nursing Facilities

A Skilled Nursing Facility (SNF) is a nursing home that provides 24 hour a day skilled nursing care, rehabilitation, and transitional care services for the injured or disabled.

Short- and long-term care is provided in SNFs. In New York State, nursing home residents are required to have a Patient Review Instrument (PRI) completed prior to placement to determine that skilled nursing care is needed. They are licensed, regulated and supervised by the New York State Department of Health. All SNFs accept private payment. Payment may also be covered by Medicare, Medicaid, or Long-Term Care Insurance after private resources reach the Medicaid limit. Policies vary from facility to facility.
